Shortened Notice of Privacy Practices

Our practice is dedicated to maintaining the privacy of your personal health information. We are required also by law to do this. These laws are complicated, but we must provide you with important information. This Notice is a shortened version of the full, legally required Notice of Privacy Practices which is available in the waiting room, so refer to the Complete Notice for more information. Even in the Complete Notice we can't cover all possible situations so please talk to your provider or our Privacy Officer (see the end of this information) about any questions or problems.

Use and Disclosure of your Protected Health Information (PHI)

We will use the information about your health which we get from you or from others mainly to provide you with **treatment**, to arrange **payment** for our services or for some other business activities which are called, in the law, **health care operations**. After you have read this NPP, we will ask you to sign a **Consent Form** to agree to be treated and to let us use and share your information. **If you do not consent and sign the Consent Form, we cannot treat you.**

If we or you want to use or disclose (send, share, release) your information for any other purposes, we will discuss this with you and ask you to sign an **Authorization** to allow this.

We will keep your health information private but there are times when the laws require us to use or share it, such as:

1. When there is a serious threat to your health and safety or the health and safety of another individual or the public. We have to report suspected child abuse or adult abuse, some instances of suicidal ideation, and some instances of homicidal ideation. We will only share information with a person or organization whom we believe is able to help prevent or reduce the threat.
2. Some lawsuits and legal or court proceedings.
3. If a law enforcement official requires to do so.
4. For Workers Compensation and similar benefit programs.

There are some other situations which don't happen very often. They are described in the Complete version of the Notice of Privacy Practices which is available in the waiting room.
